

## Goop Instructions:

### **Materials:**

- 1 tablespoon of white craft
- craft stick (for stirring)
- 1 & ½ teaspoons of borax
- 2 paper cups
- Water
- Measuring spoons
- Clean-up materials –paper towels, warm water, detergent
- Small sheet of plastic wrap or zipper top plastic bag (to store goop)

FIGURE A

### **Instruction:**

1. Pour 1 tablespoon of white glue into first paper cup. Add 1 tablespoon of water and stir with stick until mixed. Set aside.
2. In a second paper cup, mix 1 & ½ teaspoons of borax and 4 tablespoons of water. Stir well, then before borax settles to the bottom, use a tablespoon to scoop out **ONLY** one spoonful of the water and borax mixture. Pour into the cup that has the glue and water mixture.
3. Stir with stick (figure A). If the mixture doesn't quickly form a gel, add another tablespoonful of the borax mixture and stir again.
